

Data sheet

FM 050 (050-1BA10)

Technical data

Type FM 050 Module ID 08C2 3801 General information Note - Caunter 32 Bit (AB) DC 3 Y (difference agnat) Current consumption/power loss Current consumption from backplane bus 70 mA Power loss 0.85 W Technical data digital inputs Number of inputs - Cable length, shielded 100 m Cable length, unshielded - Cable length protection of rated load voltage - Current consumption from load voltage - DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage - DIfferential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal RS422 Input v	Order no.	050-1BA10
Module ID	Туре	FM 050
Current consumption/power loss	Module ID	08C2 3801
Current consumption/power loss		
Features 1 Counter 32 Bit (AB) DC 5 V (difference signal) Current consumption/power loss Current consumption from backplane bus 70 mA Power loss 0.85 W Technical data digital inputs Number of inputs - Cable length, shielded 100 m Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "9" to "1" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, unshielded - Catel consumption from load voltage L+ (without load) -	General information	
Current consumption/power loss Current consumption from backplane bus 70 mA Power loss 0.85 W Technical data digital inputs Number of inputs - Cable length, shielded 100 m Cable length, unshielded Rated load voltage - Current consumption from load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage For signal "	Note	-
Current consumption/power loss Current consumption from backplane bus Power loss 0.85 W Technical data digital inputs Number of inputs	Features	
Current consumption from backplane bus 70 mA Power loss 0.85 W Technical data digital inputs Number of inputs - Cable length, shielded 100 m Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Ratled value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Input d		Do o v (dillorelloc signal)
Power loss 0.85 W Technical data digital inputs Number of inputs - Cable length, shielded 100 m Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µ	Current consumption/power loss	
Number of inputs - Cable length, shielded 100 m Cable length, shielded Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Differential signal RS422 Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input certain signal RS422 Input delay of "0" to "1" ON DIFFEROS possible - DI	Current consumption from backplane bus	70 mA
Number of inputs - Cable length, shielded 100 m Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 μs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage Current consumption from load voltage L+ (without load) -	Power loss	0.85 W
Number of inputs - Cable length, shielded 100 m Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 μs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage Current consumption from load voltage L+ (without load) -	Tackwisel date digital inputs	
Cable length, shielded 100 m Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Input delay of "0" to "1" 0.8 µs Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Input delay of "1" to "0" 0.8 µs Input delay of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage Current consumption from load voltage L+ (without load) -		
Cable length, unshielded - Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Input delay of "0" to "1" 0.8 µs Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Input delay of "1" to "0" 0.8 µs Input delay of "1" to "0" 0.8 µs Input delay of simultaneously utilizable inputs horizontal configuration - Input current delay of the simultaneously utilizable inputs vertical configuration - Input delated delated and input delated delated and input delated dela	·	
Rated load voltage DC 20.428.8 V Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -		
Reverse polarity protection of rated load voltage - Current consumption from load voltage L+ (without load) 20 mA Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Input characteristic curve - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Rated load voltage - Current consumption from load voltage L+ (without load) -		
Current consumption from load voltage L+ (without load) Rated value Input voltage for signal *10* Input voltage for signal *11* Differential signal RS422 Input voltage hysteresis - Frequency range Input resistance Input current for signal *11* Connection of Two-Wire-BEROs possible Max. permissible BERO quiescent current Input delay of *10** to *1* 0.8 µs Input delay of *10** to *0* Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration Input characteristic curve Initial data size 8 Byte Technical data digital outputs Number of outputs Cable length, shielded - Rated load voltage Current consumption from load voltage L+ (without load) - Differential signal RS422 Diff		DC 20.428.8 V
Rated value - Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Input delay of "0" to "1" O.8 µs Input delay of "0" to "1" O.8 µs Input delay of "1" to "0" O.8 µs		
Input voltage for signal "0" Differential signal RS422 Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "0" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage L+ (without load) - Differential signal RS422 Differential	Current consumption from load voltage L+ (without load)	20 mA
Input voltage for signal "1" Differential signal RS422 Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "0" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -		-
Input voltage hysteresis - Frequency range - Input resistance 120 Ohm Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Input voltage for signal "0"	Differential signal RS422
Input resistance	Input voltage for signal "1"	Differential signal RS422
Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Input voltage hysteresis	-
Input current for signal "1" - Connection of Two-Wire-BEROs possible - Max. permissible BERO quiescent current - Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage L+ (without load) - Canne Can	Frequency range	•
Connection of Two-Wire-BEROs possible Max. permissible BERO quiescent current Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration	Input resistance	120 Ohm
Max. permissible BERO quiescent current Input delay of "0" to "1" 0.8 μs Input delay of "1" to "0" 0.8 μs Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Input current for signal "1"	-
Input delay of "0" to "1" 0.8 µs Input delay of "1" to "0" 0.8 µs Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration - Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Connection of Two-Wire-BEROs possible	-
Input delay of "1" to "0" Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration Input characteristic curve Initial data size 8 Byte Technical data digital outputs Number of outputs Cable length, shielded - Cable length, unshielded Rated load voltage Current consumption from load voltage L+ (without load) - Cable length, unshielded - Current consumption from load voltage L+ (without load)	Max. permissible BERO quiescent current	-
Number of simultaneously utilizable inputs horizontal configuration Number of simultaneously utilizable inputs vertical configuration Input characteristic curve Initial data size 8 Byte Technical data digital outputs Number of outputs Cable length, shielded - Cable length, unshielded Rated load voltage Current consumption from load voltage L+ (without load) - Current consumption from load voltage L+ (without load)	Input delay of "0" to "1"	0.8 µs
Number of simultaneously utilizable inputs vertical configuration Input characteristic curve Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded Cable length, unshielded Rated load voltage Current consumption from load voltage L+ (without load) - Cable length, unshielded - Current consumption from load voltage L+ (without load)	Input delay of "1" to "0"	0.8 µs
Input characteristic curve - Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -		-
Initial data size 8 Byte Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Number of simultaneously utilizable inputs vertical configuration	-
Technical data digital outputs Number of outputs - Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load)	Input characteristic curve	-
Number of outputs Cable length, shielded Cable length, unshielded Rated load voltage Current consumption from load voltage L+ (without load) -	Initial data size	8 Byte
Cable length, shielded - Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Technical data digital outputs	
Cable length, unshielded - Rated load voltage - Current consumption from load voltage L+ (without load) -	Number of outputs	-
Rated load voltage - Current consumption from load voltage L+ (without load) -	Cable length, shielded	-
Current consumption from load voltage L+ (without load) -	Cable length, unshielded	-
	Rated load voltage	-
Output delay of "0" to "1" -	Current consumption from load voltage L+ (without load)	-
	Output delay of "0" to "1"	-

Output delay of "1" to "0"	- A YASKAWA COMPANY
Minimum load current	-
Lamp load	-
Parallel switching of outputs for redundant control of a load	
Parallel switching of outputs for increased power	-
Actuation of digital input	
Switching frequency with resistive load	
Switching frequency with inductive load	
Switching frequency on lamp load	
Internal limitation of inductive shut-off voltage	
Short-circuit protection of output	-
Trigger level	-
Number of operating cycle of relay outputs	
Switching capacity of contacts	-
Output data size	10 Byte
Technical data counters	
Number of counters	1
Counter width	32 Bit
Maximum input frequency	500 kHz
Maximum count frequency	2 MHz
Mode incremental encoder	✓
Mode pulse / direction	✓
Mode pulse	-
Mode frequency counter	-
Mode period measurement	-
Gate input available	-
Latch input available	-
Reset input available	✓
Counter output available	-
Status information, alarms, diagnostics	
Status display	yes
Interrupts	yes, parameterizable
Process alarm	yes, parameterizable
Diagnostic interrupt	yes, parameterizable
Diagnostic functions	yes, parameterizable
Diagnostics information read-out	possible
Module state	green LED
Module error display	red LED
Channel error display	none
Isolation	
Between channels	-
Between channels of groups to	
Between channels and backplane bus	✓
Between channels and power supply	-
Max. potential difference between circuits	-
Max. potential difference between inputs (Ucm)	-

Max. potential difference between Mana and Mintern (Uiso)	- A YASKAWA COMPANY
Max. potential difference between inputs and Mana (Ucm)	-
Max. potential difference between inputs and Mintern (Uiso)	-
Max. potential difference between Mintern and outputs	-
Insulation tested with	DC 500 V
Datasizes	
Input bytes	8
Output bytes	10
Parameter bytes	23
Diagnostic bytes	20
Housing	
Material	PPE / PPE GF10
Mounting	Profile rail 35 mm
Mechanical data	
Dimensions (WxHxD)	12.9 mm x 109 mm x 76.5 mm
Weight	60 g
Environmental conditions	
Operating temperature	0 °C to 60 °C
Storage temperature	-25 °C to 70 °C
Certifications	
UL508 certification	yes
